

Sierra Group's Workplace Foundation

Our newest effort

It's about getting
connected

One More Way is a national forum created in response to all of you who tell us that "it's hard to get connected."

The Sierra Group Foundation, through this one of a kind national program will serve as '*One More Way*' to bring everyone together to see that job seekers with disabilities - starting with veterans, get connected to the people, the programs and the specific businesses who are out there looking to work with them. It's all too easy to get lost in the process. This effort will bring key players together to clear up confusion and create new connections when none have been established. The *One More Way* initiative serves as a forum for all parties involved in the area of disability and employment to come together to do together what we cannot do alone.

Our Board consists of experienced and knowledgeable members ready to use their own expertise and relationships toward this goal. At our kick off breakfast in Washington DC on April 18th the *One More Way* program founders will share with our distinguished guests our plans to collect and distribute information to significantly increase the numbers of veterans with disabilities who find jobs.

We will use the forum of a national launch to recap the status of an existing legislative initiative designed to 'jump start' the hiring process of veterans with disabilities. We will also share our detailed plans to bring education and candidates directly to hiring managers throughout the country.

By sharing what we know openly with one another, we know we can be the one more way to link together everyone who is involved with employees with disabilities. We want you to join us with the knowledge and experience you can bring to this project so that we can all have just *One More Way* to work together to lower the rate of unemployment for people with disabilities, starting with our veterans!
